

rol en bedek herfst

Kies welk blad je aan wil bieden, kies uit de getalsymbolen of sommen. Rol met het juiste aantal dobbelstenen (zie onderaan de bladzijde) en tel de gedobbelde ogen bij elkaar op. Zoek het getal of de som die past bij het aantal ogen en bedek het figuur. Ga door tot het blad vol is!

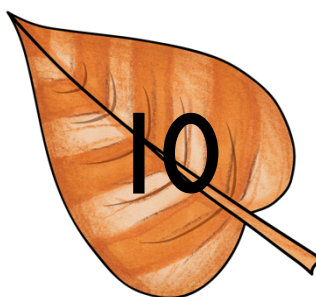

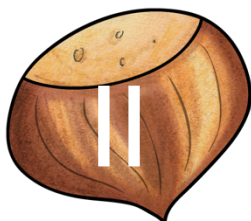

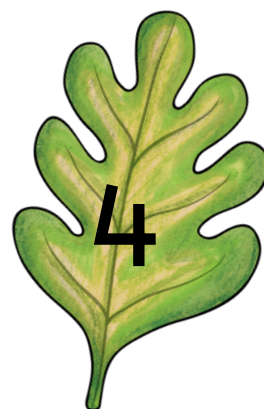

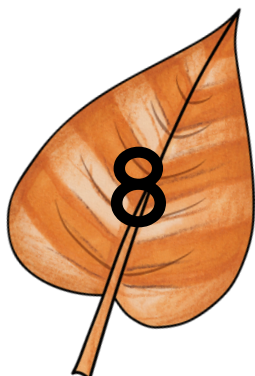

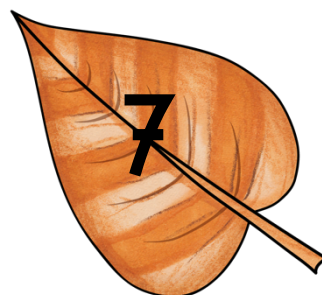

Print het blad, zodat kinderen het figuur kunnen kleuren. Lamineer voor langdurig gebruik en laat de kinderen de figuren bedekken met fiches.
